-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 03 May 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 13 is rejected under 35 U.S.C. 102(b) as being anticipated by Condon et al (5,188,596).

Condon teaches all the claimed subject matter, including a transparent shaft section proximal to a non-transparent balloon section (fig 7). See col. 6, lines 32-36 for non-transparent balloon.

***Claim Rejections - 35 USC § 103***

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
4. Claims 8-10, 12, and 14-26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Condon in view of Muni et al (US 5,316,706).

Condon teaches all the claimed subject matter except for the sizing of the device, and that it is made out of PEEK with particular properties. As discussed in prior office actions, it would have been obvious to change the size of the device slightly as it is within the level of ordinary skill in the art to change sizes to fit different anatomy of different patients and or for use in different body locations. Further, Muni teaches the use of transparent PEEK with the claimed crystallinity and that it is amorphous. Again, as discussed in previous office actions, it would

Art Unit: 3763

have been obvious to choose PEEK as a well-known transparent material suitable for use in catheters, and also as previously mentioned, the percent transmission of visible light is considered to be inherent to transparent forms of PEEK.

***Response to Arguments***

5. Applicant's arguments filed 05/03/2004 have been fully considered but they are not entirely deemed to be persuasive.

In contrary to the applicant's argument that Condon only discloses the holes or windows which are transparent or that only a small portion of the shaft is transparent, Condon discloses in column 3, lines 16-18, lines 44-47; and in column 5, lines 49-51 and lines 66-68; that the whole shaft or a portion of the shaft or a balloon can be made of a transparent material.

***Conclusion***

6. This is a Request of Continued Examination. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

**Art Unit: 3763**

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
